BIAA 2011 SPECIAL EXPANDED DIGITAL EDITION

Prospectus

You are invited to participate in our Special Expanded DIGITAL Edition. All qualifying entries will be accepted on space available basis.

To Qualify:

- Purchase any size space in the Print Edition
- Submit materials that meet the requirements outlined below

We appreciate a link back to our website: It is in the best interest of every participating artist that we give space available preference to anyone providing a link back to BIAA.

Our theme for 2011 is "Touching Nature"

- Provide us with a selection of images: minimum 3 / maximum 10. Images should be 300dpi and no smaller than 5x7 inches. A bit larger is often better. To calculate image size: total number of pixels, divided by 300, equals actual size in inches.
- Provide us with a story or captions to accompany the images. Total words should be a minimum of 200 to a maximum of 1000. BIAA will be responsible for copy fitting to a variety of formats. As always, any suggested edits will meet with your approval before publication.

We are happy to help with story ideas on an individual basis.

Some Story Ideas:

For Artists:

Describe how the work or the process itself allows you to touch nature.

Describe how touching nature inspires the work.

Process stories of any kind that show how your art is created.

For Galleries:

Describe how your selections are informed by the way we touch nature.

Describe how the artists you feature are inspired by nature.

For Groups:

Describe how your goals and projects are influenced by touching nature.

For Any and All:

Unique observations on the connections between art and touching nature are encouraged.

Be sure to provide complete contact information

Optional: Self photo, or portrait by Clarissa
